WHAT'S NEXT FOR BUSINESS REOPENING?

Updated 05/26/2020

STATUS OF THE STATE

Californians have been staying home and saving lives since the start of our statewide stay-at-home order issued on March 19, 2020. These efforts have allowed the state to move forward on our roadmap for modifying the statewide order.

We are now in early Stage 2, where retail (curbside and delivery only), related logistics and manufacturing and essential businesses can open. The state is issuing guidance to help these workplaces reopen safely. [More Information.](#)

Stage 2 expansion will be phased in gradually. Some communities may move through Stage 2 faster if they are able to show greater progress. Counties that have met the readiness criteria and worked with the California Department of Public Health can open more workplaces as outlined on the [County Variance page.](#)

Industry guidance to reduce the risk

California moved into Stage 2 of modifying the state’s Stay-at-Home order on May 8, 2020. Our progress in achieving key public health metrics will allow a gradual re-opening of California’s economy.

We recognize the impact of economic hardship. We must get our economy roaring once again and put paychecks in people’s pockets. But the risk of COVID-19 infection is still real for all Californians and continues to be fatal.

The state is issuing guidance for businesses to follow, if they’re permitted to open per County Public Health rules.
